Atchafalpa	99½
American Locomotive	31
St. Paul	100
Copper	70½
Lehigh Valley	139

### WAGNER'S REVIEW

#### Summary of the News.

New York, June 23.—France to declare operative July 1, law taxing at 5 per cent incomes derived from foreign securities.

Floods in China causing great loss. Vanderbilt says congress should delay trust laws for three months for broad public discussion.

Railroads will not shirk mail burdens, says Ralph Peters, but will trust to justice by the people.

American stocks ¼ to ½ lower.

#### Drift of the Weather.

Illinois—Generally fair tonight and somewhat higher temperature in northwest and central tonight.

Missouri—Generally fair tonight and tomorrow; somewhat higher temperature in north and west portions tonight.

Wisconsin and Minnesota—Generally fair tonight and tomorrow; no important change.

Iowa—Generally fair tonight and Wednesday; somewhat higher temperature tonight.

North and South Dakota—Generally fair tonight and tomorrow.

Nebraska and Kansas—Generally fair tonight and tomorrow; not much change.

#### Liverpool Situation.

Liverpool, June 23.—Some little profit-taking in wheat at opening with prices unchanged to ¼ lower on weakness in America and a decline in Winnipeg yesterday. During the morning bearishness was offset by firmer offers, improved continental demand, and support from shorts and speculators.

Corn opened unchanged to 1-8 lower and remained dull at opening range.

#### Morning Grain Letter.

Chicago, Ill., June 23.—Cool weather with some rain again prevailed over the northwest and Canadian country Monday. The dry sections of Ohio, Indiana, and Illinois received a little rain. More is required. Export sales of wheat in Europe are a record, but this does not curb the 75 cents sentiment. Wheat feeling is still bearish, though a rally is due. The east is consuming Argentine corn and saving about 6 cents a bushel. Argentine corn cargoes sent to London can be diverted to New York. Cash corn demand may be dull this week. Corn bulls are greatly disappointed at failure of corn market to remain firm on the small supply estimate by snow.

September oats might break to their last low of 37 5-8, but should be acquired. Would not sell oats on this break. On the indication of a July corn condition of 56 would sell December corn after bulges. Northern Ohio sends reports of 110 per cent for corn, and says fine rains over Sunday put oats out of danger. Northwest Indiana reports corn 80 and oats 90 per cent.

Wheat cables are firm. This gives our market a chance to rally a little. Question arises of following this July and September corn break. It may be hazardous to sell on this decline. If a further dip would buy. Temperatures ran up to 94 and 96 in central west and southwest yesterday. There are, of course, a few complaints on corn. Illinois, Indiana, Missouri and Ohio will aggregate light oats crop. Final crop may be 1,100,000,000 to 1,150,000,000.

September oats at present prices are too cheap to allow of a serious decline. Map is bearish on wheat and is not bullish on corn and oats. Cool in Canada and northwest with very light rain. Light rains in Kansas; none over Iowa, and Nebraska; same in Ohio; clear and fine for harvesting in southwest.

#### Closing Grain Letter.

Chicago, June 23.—Wheat news unchanged. Small rallies only are expected. This 6c June break is largest for June since June, 1901, when wheat declined 8 cents on a crop promise of 721,000,000. Eight per cent of western Canada is in good shape. Continental markets are under the influence of our huge crop. There are a few complaints on corn, but not serious. July and September corn are affected partially by the high average crop promise and partially by the small western supplies.

The wheat liquidation undoubtedly has quieted the bullish feeling in the coarse grains.

The weekly government weather report was not bullish on corn and only moderately on oats.

#### FIX FARES TO EXPOSITION

Eastern Trunk Railroads Announce Rates to San Francisco.

San Francisco, June 23.—Round trip fares from eastern points to San Francisco for the Panama-Pacific exposition in 1915, as fixed by the railroads of the Eastern Trunk Lines association, were announced by the exposition traffic department today.

They are: New York, \$94.30; Philadelphia, \$92.95; Washington, D. C., \$92.30. The going and return trips may be made on different lines.

The fixing of these rates concluded the present special 1915 exposition reductions, the other chief ones already being determined. They are: Chicago, \$12.50; Pittsburgh, \$11.20; Buffalo, \$13.50; Detroit, \$13.50; Cincinnati, \$11.10. It is announced that further reductions are likely to be made later as conditions warrant.

#### Heard on a Train.

"Is my wife forward?" asked the passenger on the limited.

"She wasn't to me, sir," answered the conductor politely.—Purple Cow.

Los Angeles, Cal., June 23.—Marcial Huerta Quintana, said to have been a distant relative of General Victoriano Huerta, died in a hospital here as a result of being run down by an auto. Quintana was a wealthy rancher in the state of Guanajuato.

All the news all the time—The Argus.

#### POLITICAL ADVERTISING.

For County Treasurer.

I herewith announce myself as a candidate for county treasurer, subject to the democratic primary Sept. 9. (Adv.) H. C. HINRICHS.

Political Announcement.

I hereby announce myself as a candidate for county superintendent of schools, subject to the decision of the republican primaries. (Adv.) MISS LOU M. HARRIS.

For County Superintendent.

I hereby announce myself as a candidate for nomination on the republican ticket for county superintendent of schools, subject to primaries Sept. 8. FRANK S. McCALL, Rock Island.

#### Commencement and Wedding Gifts

are shown in great variety at our store, we have the largest line of sterling silverware in this vicinity. We have just received four new designs in table flatware. Our line of jewelry, diamonds, and watches are the best to be had; we specialize on fine first water diamonds and show them from ¼ karat to 3 karats.

Ladies' bracelet watches are the proper thing for this spring and we are showing a large line, ranging in price from \$12.00 to \$75.00.

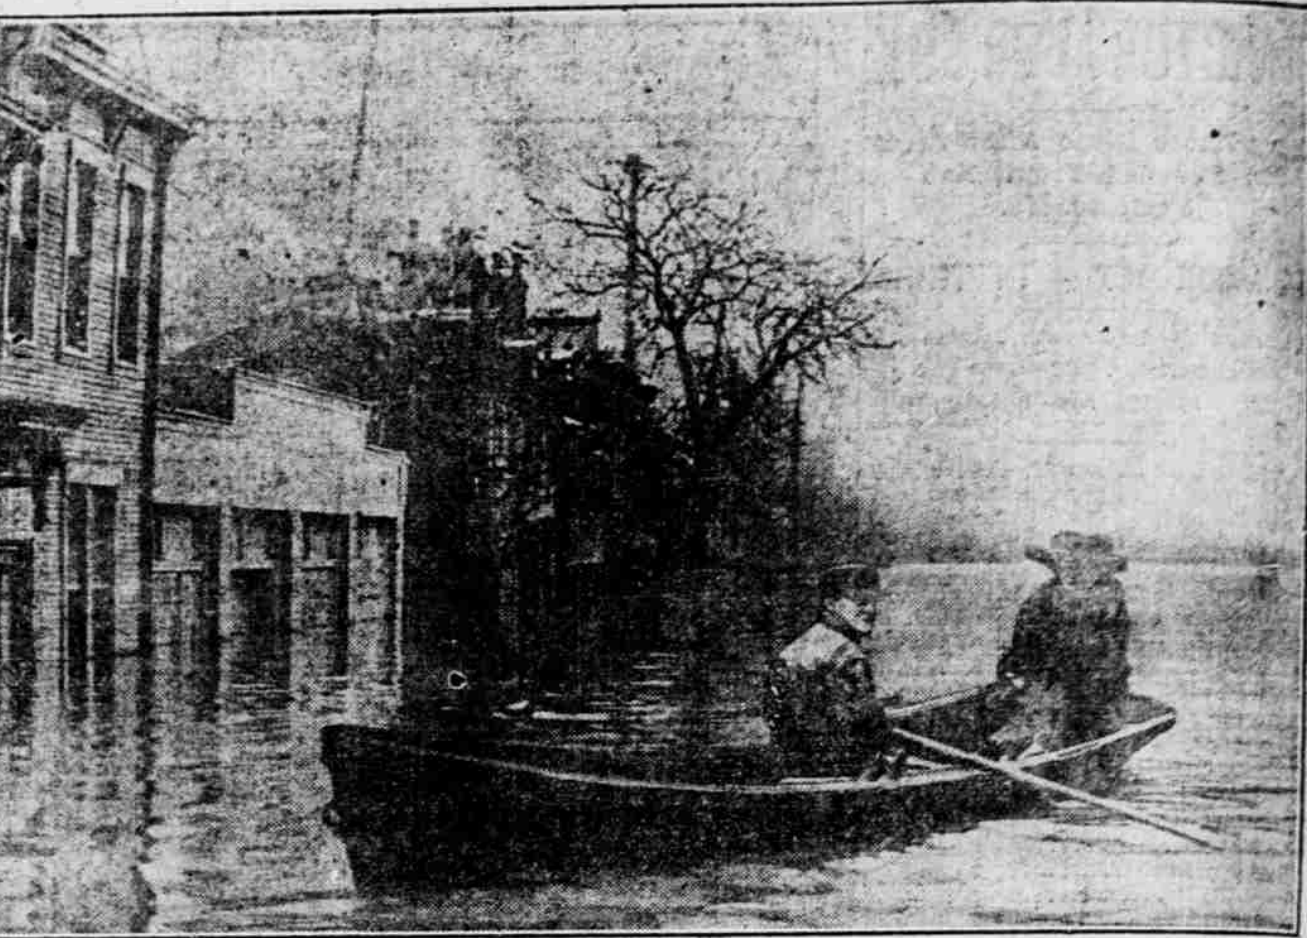

J. Ramser's Sons Jewelers

For the next 48 hours: The Mississippi will fall at a moderately rapid rate from below Dubuque to Muscatine.

J. M. SHERIER, Local Forecaster.

# THE CASE OF JENNIE BRICE

By MARY ROBERTS RINEHART

Was Jennie Brice murdered? If so, who killed her? What did "Horn" mean? Also, strange mark on the body?

Read our new serial and solve these mysteries

Don't miss the opening chapters, which will be printed in Tomorrow's Argus.

## REFORM PLAN FOR ROCK ISLAND OUT

Tentative Agreement for Reorganization Eliminates Holding Companies.

New York, June 23.—Committees representing the collateral trust bonds of the Chicago, Rock Island & Pacific Railroad company and the committee's representing stockholders of the Rock Island company, yesterday reached a tentative agreement for the reorganization of the Rock Island system.

The plan as announced contemplates the elimination of both holding companies, a return to the old Chicago, Rock Island & Pacific Railway company and the creation of noncumulative 7 per cent preferred stock of the railway company. This preferred stock is to be sold for cash, with part of the existing common stock of the railway company.

Both bondholders and stockholders are protected under the plan, it is stated, and \$20,000,000 new money will be obtained, this money being deemed necessary to finance the road for the next three years.

The limitations on the mortgage powers of the railway prevented the creation of a new mortgage for the purpose of raising the \$20,000,000 required to finance the road, it is explained. The plan contemplates, therefore, the creation of the non-cumulative 7 per cent preferred stock of the railway company.

The trust indenture securing the collateral bonds now in default is to be foreclosed and the pledged common stock of the railway company purchased, according to the contemplated plan. Out of this common stock collateral trust bondholders are to retain at par 32½ per cent of the face value of their bonds and the remainder of such common stock is to be offered for subscription with the new preferred stock.

The bondholders thus retain 62½ per cent of the stock deposited as collateral for their present bonds and part only with so much as is necessary to raise the funds required and to add value to the stock retained. In addition the collateral trust bondholders are to have the privilege to subscribe in cash for an amount equal to 15 per cent of the face amount of their bonds, receiving for such subscription 15 per cent of the face amount of their bonds in preferred stock and 14 per cent of the face amount of their bonds in existing common stock of the railway company. The announcement of the plan continues:

"The stockholders of the Rock Island company will be recognized through rights of subscription on the following terms:

"To the holders of preferred stock paying 15 per cent par value of their stock in cash, 15 per cent of such par value in new preferred stock and 14 per cent of such par value in the existing common stock of the railway company.

"To the holders of common stock, paying 15 per cent on the par value of their stock in cash, 15 per cent of such par value in new preferred stock and 10½ per cent of such par value in the existing common stock of the railway company."

"To the holders of common stock, paying 15 per cent on the par value of their stock in cash, 15 per cent of

## ICE!

Artificial Ice is Clean and Transparent

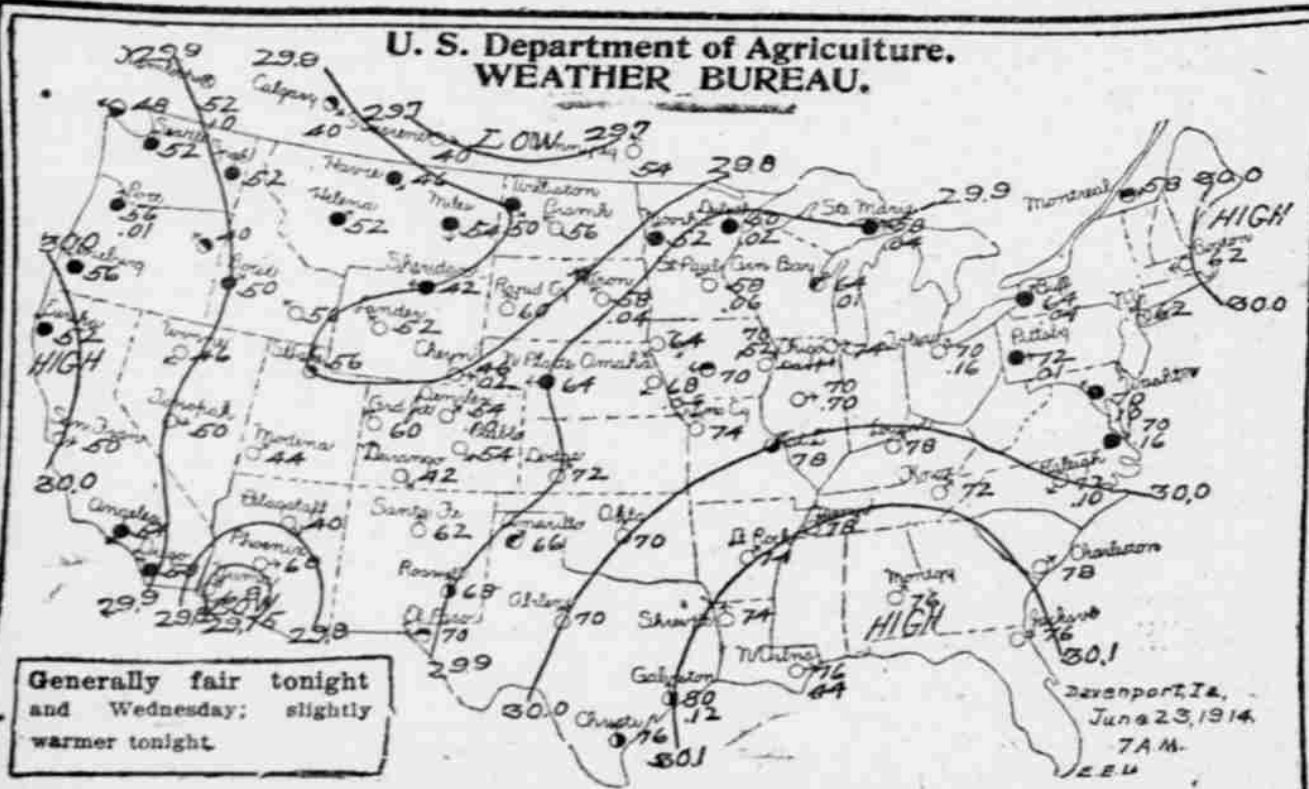

It is pure all the way through and there are no soft spots. It is as nearly perfect as ice can be made and that is the reason it melts so slowly and is so economical to use.

It is so wholesome that you can use it with perfect safety in the preparation of frozen desserts and iced drinks and it adds wonderfully to their delicate flavor. If you have not used Artificial Ice you don't know how good ice can be. Let us show you.

Daily capacity 25 tons. Telephone your orders early—first come, first served.

Rock Island Artificial Ice Company  
Fourteenth St. First Ave.  
Phone, R. I. 338.

## Daily United States Weather Map

EXPLANATORY NOTES.

Observations taken at 8 a. m., 75th meridian time. Air pressure reduced to sea level. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 60°, and 100°.

☉ clear; ☁ partly cloudy; ☁ cloudy; ☁ rain; ☁ snow; ☁ report missing. Arrows by with the wind. First figures, lowest temperature past 24 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

### WEATHER CONDITIONS.

Low pressures prevail over southern Canada, the upper Missouri valley and the Rocky mountain sections, with the greatest atmospheric depression in western Alberta, while an area of high pressure overlies the Gulf states and the lower Mississippi valley. This distribution of air pressure was attended by showers from the Missouri and upper Mississippi valleys and the lake region to the middle Atlantic states and North Carolina and by continued high temperatures in the central valleys. It is also warmer in the northern Rocky mountain sections. On account of the position of the northwestern low and the southeastern high, generally fair weather is indicated for this vicinity tonight and

### WEDNESDAY, with somewhat higher temperature tonight.
